History of Prague University of Economics and Business

The Prague University of Economics and Business, known locally as Vysoká škola ekonomická v Praze (VŠE), has a rich history that reflects the evolution of economic education in the Czech Republic. Established in 1953, the university was founded to meet the growing demand for skilled professionals in the fields of economics and business following World War II.

Over the decades, the institution has undergone several transformations, adapting to changing economic and social conditions. Initially focused on a centrally planned economy, the university shifted its curriculum to include modern economic theories and practices after the fall of communism in 1989.

This pivot allowed VŠE to embrace international standards of education and enhance its global reputation.

Today, the Prague University of Economics and Business is recognized as a leading institution in Central Europe. It has cultivated a diverse student body and a faculty composed of prominent experts in various fields of economics and business.

Academic Programs Offered

The Prague University of Economics and Business offers a wide range of academic programs tailored to meet the needs of its students and the demands of the job market.
