Overview of UNC Charlotte's Economics Program

The economics program at UNC Charlotte is designed to provide students with a solid foundation in economic theory and its applications. This program stands out due to its rigorous academic standards and its focus on real-world application. Students engage in a variety of courses that cover microeconomics, macroeconomics, and econometrics, preparing them for both advanced studies and practical challenges in the workforce.

Situated in one of the fastest-growing cities in the U.S., UNC Charlotte's economics program benefits from a vibrant local economy. Students can take advantage of internships and networking opportunities in the Charlotte metropolitan area, known for its banking and financial services sectors. This connection to the local economy enriches the educational experience, making it relevant to current economic conditions and trends.

Curriculum and Course Offerings

The curriculum for the economics program at UNC Charlotte is comprehensive, aiming to equip students with both theoretical knowledge and practical skills. The program offers a range of courses that cater to different interests within the field of economics.

Core Courses

Students are required to complete core courses that lay the foundation for their economic understanding. Some of the essential courses include:

- Principles of Microeconomics
- Principles of Macroeconomics
- Intermediate Microeconomic Theory
- Intermediate Macroeconomic Theory
- Econometrics

These core courses provide a thorough grounding in both micro and macroeconomic principles, ensuring students grasp the fundamental concepts that will be built upon in more advanced classes.

Elective Courses

In addition to core courses, UNC Charlotte offers a variety of elective courses that allow students to tailor their education to their specific interests. Electives may include:

- Behavioral Economics
- International Economics
- Public Economics
- Labor Economics
- Environmental Economics

These electives provide opportunities for students to explore specialized topics, encouraging them to develop expertise in areas that are increasingly relevant in today's economy.

Faculty and Research Opportunities

At UNC Charlotte, students benefit from a diverse faculty with extensive experience in various fields of economics. The faculty members are not only dedicated educators but also active researchers who contribute to the field through publications and presentations at national and international conferences.

Research Areas

Faculty research covers a wide range of topics, allowing students to engage with cutting-edge economic issues. Some notable research areas include:

- Economic Development
- Health Economics
- Financial Markets
- Urban Economics
- Public Policy

Students are encouraged to participate in research projects, often leading to opportunities for co-authorship on papers and presentations at academic conferences. This hands-on experience is invaluable for those looking to pursue graduate studies or careers in research-oriented roles.
