- Conclusion

History of the University

The University of Economics in Katowice, originally known as the Higher School of Trade, has a rich history that dates back to its founding in 1937. Initially aimed at providing high-quality education in economics and business, the university has undergone several transformations over the decades. During the post-war period, it expanded its curriculum and adapted to the changing economic landscape of Poland.

In 1974, the institution was granted the status of a university, which allowed it to offer a wider range of educational programs and degrees. Throughout the years, the University of Economics in Katowice has maintained its focus on practical training, emphasizing the importance of preparing students for real-world challenges. This dedication to quality education has helped the university gain recognition both nationally and internationally.

Academic Programs Offered

The University of Economics in Katowice offers a diverse range of academic programs designed to meet the needs of today's evolving job market. With faculties focusing on economics, finance, management, and international relations, students have the opportunity to pursue various

undergraduate and postgraduate degrees.
