Overview of the UNLV Economics Department

The UNLV Economics Department is part of the College of Liberal Arts and is dedicated to providing high-quality education in economics. The department is known for its diverse curriculum that covers various aspects of economic theory and its applications. By emphasizing both micro and macroeconomic principles, the department aims to equip students with a comprehensive understanding of economic systems and their complexities.

Founded with the mission to advance the understanding of economic dynamics, the department has grown significantly in terms of enrollment and academic offerings. It attracts a diverse student body, reflecting the multicultural fabric of Las Vegas and beyond. The department's strategic location in a rapidly growing city provides unique opportunities for research and real-world applications of economic concepts.

Academic Programs Offered

The UNLV Economics Department offers a range of academic programs tailored to meet the diverse needs of students. These programs include undergraduate degrees, graduate degrees, and specialized certificates that focus on various economic disciplines.

Undergraduate Programs

Students can pursue a Bachelor of Arts in Economics or a Bachelor of Science in Economics, each designed to provide a solid grounding in economic theory and quantitative methods. The curriculum includes core courses in microeconomics, macroeconomics, and econometrics, along with electives that allow students to specialize in areas such as labor economics, international economics, and public policy.

Graduate Programs

The graduate offerings include a Master of Arts in Economics, which is ideal for individuals seeking advanced knowledge and analytical skills applicable in various sectors. The program emphasizes research methodologies and prepares students for roles in academia, industry, and government. Additionally, the department offers a Ph.D. program that focuses on producing high-caliber researchers and educators in economics.

Faculty Expertise

The faculty of the UNLV Economics Department comprises accomplished scholars and practitioners with extensive experience in various fields of economics. Many faculty members have published research in top-tier academic journals and contribute significantly to economic discourse.

Research Interests

Faculty members specialize in diverse areas, including but not limited to:

- Behavioral economics
- Public economics
- Health economics
- Environmental economics
- Labor economics

This diversity in expertise not only enriches the learning experience for students but also enhances the department's research capabilities, fostering a culture of inquiry and innovation.

Research Initiatives

Research is a cornerstone of the UNLV Economics Department. The faculty and students engage in various research projects that address pressing economic issues and contribute to policy development. The department hosts regular seminars and workshops, inviting experts from around the globe to share their insights and findings.

Research Centers and Partnerships

The department is involved in several research initiatives and collaborations that enhance its academic reputation. Notable centers include:

- The Center for Business and Economic Research
- The Institute for Economic Policy Research
- The UNLV Research Foundation

These centers focus on applied research that benefits both the local community and broader economic contexts, providing valuable data and insights for policymakers and business leaders.
