

# WHEN ECONOMICS WAS ADDED IN NOBEL PRIZE

WHEN ECONOMICS WAS ADDED IN NOBEL PRIZE MARKED A SIGNIFICANT TURNING POINT IN THE FIELD OF SOCIAL SCIENCES, ACKNOWLEDGING THE IMPORTANCE AND RELEVANCE OF ECONOMIC RESEARCH ALONGSIDE OTHER ESTABLISHED DISCIPLINES. THE ADDITION OF THE NOBEL PRIZE IN ECONOMIC SCIENCES HAS NOT ONLY ELEVATED THE STATUS OF ECONOMICS AS A FORMAL ACADEMIC DISCIPLINE BUT HAS ALSO PLAYED A CRUCIAL ROLE IN SHAPING MODERN ECONOMIC THOUGHT AND POLICY. THIS ARTICLE EXPLORES THE HISTORY, SIGNIFICANCE, AND EVOLUTION OF THE NOBEL PRIZE IN ECONOMIC SCIENCES, EXAMINING WHEN IT WAS ESTABLISHED, WHO WERE THE FIRST LAUREATES, AND HOW IT HAS INFLUENCED ECONOMIC RESEARCH AND PRACTICE OVER THE YEARS. FURTHERMORE, WE WILL DISCUSS THE CONTROVERSIES SURROUNDING THE PRIZE AND ITS IMPACT ON THE GLOBAL ECONOMIC LANDSCAPE.

## HISTORICAL CONTEXT OF THE NOBEL PRIZES

THE NOBEL PRIZES WERE ESTABLISHED BY THE WILL OF ALFRED NOBEL, A SWEDISH INVENTOR, ENGINEER, AND INDUSTRIALIST, WHO IS BEST KNOWN FOR INVENTING DYNAMITE. IN HIS WILL, DATED NOVEMBER 27, 1895, NOBEL SPECIFIED THAT THE PRIZES SHOULD BE AWARDED TO INDIVIDUALS WHO HAVE CONFERRED THE GREATEST BENEFIT TO HUMANITY IN THE FIELDS OF PHYSICS, CHEMISTRY, MEDICINE, LITERATURE, AND PEACE. THE FIRST AWARDS WERE DISTRIBUTED IN 1901, WITH THE NOBEL PEACE PRIZE BEING AWARDED IN OSLO, NORWAY, WHILE THE OTHER PRIZES WERE AWARDED IN STOCKHOLM, SWEDEN.

INITIALLY, ECONOMICS WAS NOT INCLUDED IN THIS PRESTIGIOUS LIST. THE OMISSION WAS SIGNIFICANT GIVEN THE GROWING INFLUENCE OF ECONOMIC THOUGHT DURING THE LATE 19TH AND EARLY 20TH CENTURIES. AS THE WORLD UNDERWENT RAPID INDUSTRIALIZATION AND GLOBALIZATION, ECONOMIC THEORIES BECAME INCREASINGLY RELEVANT IN ADDRESSING SOCIAL CHALLENGES. THE CALL FOR THE INCLUSION OF ECONOMICS IN THE NOBEL PRIZES INTENSIFIED AS THE DISCIPLINE MATURED AND BEGAN TO PROVIDE CRITICAL INSIGHTS INTO SOCIETAL ISSUES.

## ESTABLISHMENT OF THE NOBEL PRIZE IN ECONOMIC SCIENCES

THE NOBEL PRIZE IN ECONOMIC SCIENCES, OFFICIALLY KNOWN AS THE SVERIGES RIKSBANK PRIZE IN ECONOMIC SCIENCES IN MEMORY OF ALFRED NOBEL, WAS ESTABLISHED IN 1968. THIS CREATION WAS MADE POSSIBLE THROUGH A DONATION FROM SWEDEN'S CENTRAL BANK, SVERIGES RIKSBANK, WHICH SOUGHT TO HONOR THE MEMORY OF ALFRED NOBEL BY RECOGNIZING ACHIEVEMENTS IN THE FIELD OF ECONOMICS. THE DECISION TO CREATE A SEPARATE CATEGORY FOR ECONOMICS WAS DRIVEN BY THE GROWING ACKNOWLEDGMENT OF THE DISCIPLINE'S IMPORTANCE IN UNDERSTANDING AND SOLVING ECONOMIC ISSUES GLOBALLY.

THE NOBEL FOUNDATION ACCEPTED THE STIPULATIONS OF SVERIGES RIKSBANK, AND THE FIRST PRIZE WAS AWARDED IN 1969. THE ESTABLISHMENT OF THIS PRIZE WAS A MILESTONE, AS IT FORMALLY RECOGNIZED ECONOMICS AS A DISCIPLINE WORTHY OF THE SAME LEVEL OF ACCLAIM AS THE OTHER SCIENCES. THIS ADDITION BROUGHT A NEW DIMENSION TO THE NOBEL PRIZES,

ATTRACTING ATTENTION FROM ECONOMISTS AND POLICYMAKERS ALIKE.

## FIRST NOBEL LAUREATES IN ECONOMICS

THE INAUGURAL NOBEL PRIZE IN ECONOMIC SCIENCES WAS AWARDED TO RAGNAR FRISCH AND JAN TINBERGEN IN 1969 FOR THEIR PIONEERING WORK IN THE DEVELOPMENT OF ECONOMETRIC MODELS. ECONOMETRICS IS A BRANCH OF ECONOMICS THAT APPLIES STATISTICAL METHODS TO ECONOMIC DATA TO GIVE EMPIRICAL CONTENT TO ECONOMIC RELATIONSHIPS. THEIR CONTRIBUTIONS LAID THE FOUNDATION FOR FUTURE RESEARCH IN THE FIELD, ENABLING ECONOMISTS TO BETTER ANALYZE ECONOMIC PHENOMENA THROUGH QUANTITATIVE METHODS.

SINCE THEN, THE NOBEL PRIZE IN ECONOMIC SCIENCES HAS RECOGNIZED NUMEROUS INFLUENTIAL ECONOMISTS, INCLUDING:

- MILTON FRIEDMAN (1976) - FOR HIS RESEARCH ON CONSUMPTION ANALYSIS AND MONETARY HISTORY.
- AMARTYA SEN (1998) - FOR HIS CONTRIBUTIONS TO WELFARE ECONOMICS AND SOCIAL CHOICE THEORY.
- PAUL KRUGMAN (2008) - FOR HIS ANALYSIS OF TRADE PATTERNS AND ECONOMIC GEOGRAPHY.
- ELINOR OSTROM (2009) - FOR HER WORK ON THE GOVERNANCE OF COMMON RESOURCES.

EACH LAUREATE HAS BROUGHT UNIQUE INSIGHTS INTO ECONOMIC THEORY AND PRACTICE, DEMONSTRATING THE DYNAMIC NATURE OF THE DISCIPLINE AND ITS APPLICABILITY TO REAL-WORLD ISSUES.

## IMPACT ON ECONOMIC RESEARCH AND POLICY

THE INTRODUCTION OF THE NOBEL PRIZE IN ECONOMIC SCIENCES HAS SIGNIFICANTLY IMPACTED BOTH ECONOMIC RESEARCH AND POLICY FORMULATION. BY AWARDING ECONOMISTS FOR THEIR CONTRIBUTIONS, THE PRIZE HAS ELEVATED THE PROFILE OF ECONOMIC RESEARCH, ATTRACTING BOTH ACADEMIC AND PUBLIC INTEREST. THE RECOGNITION THAT COMES WITH THE NOBEL PRIZE INCENTIVIZES RIGOROUS RESEARCH AND ENCOURAGES SCHOLARS TO ENGAGE IN INNOVATIVE ECONOMIC THINKING.

MOREOVER, NOBEL LAUREATES OFTEN INFLUENCE PUBLIC POLICY AND DEBATE. THEIR WORK FREQUENTLY FINDS ITS WAY INTO POLICY DISCUSSIONS, SHAPING DECISIONS MADE BY GOVERNMENTS AND INTERNATIONAL ORGANIZATIONS. THE EMPIRICAL RESEARCH RECOGNIZED BY THE NOBEL PRIZE HAS PROVIDED VALUABLE INSIGHTS INTO CRITICAL ISSUES SUCH AS INFLATION, UNEMPLOYMENT, POVERTY, AND ECONOMIC DEVELOPMENT.

## CONTROVERSIES AND CRITICISMS
